Subject: Keep UBER in SC

As an Uber driver I hear "I love Uber!" from most of my riders. They especially like the timely service. They also like the clean, late model cars, and not having to deal with cash. To emphasize though, what seems most important is the timely service.

I drove a taxi in Columbia for about a year and I have been more strictly investigated by Uber, by far, than to drive taxi. A thorough back ground check, driving record and auto safety inspection by a major auto service company.

I love driving for Uber.

I feel important in so far as serving the public Ride Share program and having our riders show so much appreciation.

Please keep Uber serving the the riding public.

Thank you,

Ryan "Scott" Jordan
